

BLOOD TRANSFUSION ARTEFACT RECORD	
NUMBER	AA-064
ITEM / TITLE	30 HOLE WOODEN (BLOOD SAMPLE) TUBE RACK
PHYSICAL DESCRIPTION	A wooden sample tube rack (approx. 12 x 3 x 2 inches) designed to hold 30 (blood) sample tubes.
OTHER INFORMATION	These hardwood racks were originally used for holding blood donor samples (~10ml) for blood grouping – taken at the time of donation - each sample tube being labelled with the donation number.
